GRANGE
HEALTH SPA

A Health Spa for all Seasons

ALL WELCOME FOR BEAUTY & SPA TREATMENTS

Knowle Grange Health Spa – your secret retreat, set in beautiful Victorian country gardens on the Kent and Sussex border. A boutique health spa, Knowle Grange offers a friendly and private approach to wellness.

Part of the 200-acre Knowle Estate, Knowle Grange was a cluster of horticultural buildings, including a splendid glasshouse, still standing but without its glass. Some of these buildings are now treatment rooms, including our lovely Folly, which features on our logo, and our newly refurbished Carnation Room, which was built specifically to grow carnations.

Welcome

Are you looking to get away from it all?

Knowle Grange is the perfect retreat. We offer a range of indulgent spa treatments that will relax, restore and rejuvenate mind, body and soul.

SPA DAY

You can rest assured that you will enjoy a personal spa day experience as we only welcome a small group of spa day guests to our retreat on any particular day with the option of a private room, if preferred. We take pride and pleasure in making you feel special and in the quality of our spa treatments and food.

Following a welcome drink, enjoy swimming in our heated natural spring water pool followed by a steam bath, or relax in our candlelit spa bath and sauna. We serve a tasty two course lunch with a glass of Prosecco/wine or fruit juice to fit in with the time of your treatment.

You are welcome to continue using the spa facilities in the afternoon too. Catch up with your friends, loved ones or simply relax and enjoy peace and tranquility after your treatments.

CACI EXPRESS TARGETED TREATMENTS

Neck and Jowl lift

£55 | 35 min

This treatment lifts and firms the neck and jawline muscles, redefining facial contours to give a more toned appearance. It is ideal for women wanting to improve the appearance of sagging jowls and for men wanting a more chiselled jawline.

Eye Revive

£55 | 35 min

This treatment tightens and firms the muscles around the eye. The application of a reviving mask will reduce puffiness and dark circles and help soften the appearance of lines and wrinkles. The lifting and tightening of the upper brow create an instant 'brow lift' effect, opening up the eye contour area and reducing the 'hooded eyelid' appearance.

For optimum results, a course of any 10 CACI treatments is recommended. We recommend 2 treatments a week until the course is completed, followed by monthly maintenance sessions. We offer a free treatment for every 10 treatments booked.

LED Light Therapy

LED Light Therapy can be used to treat all skin types and all skin conditions, including psoriasis, eczema, acne, pigmentation and many more. It is highly regarded and recognised as one of the best non-invasive anti-ageing treatments on the market. It encourages cell activity and blood flow to oxygenate and detox the skin, whilst stimulating collagen production. It will give your skin an instant youthful glow after the first treatment.

Light Therapy is a fantastic treatment that can be used on its own or in conjunction with skin resurfacers and many other facials.

Red Light Therapy

all skin types - £45 | 30 min

A pure, visible, non-invasive red light stimulates the deeper layers of the skin, working with your body's own natural processes to counteract the effects of ageing and to improve skin texture and tone, softening pigmentation and smoothing fine lines and wrinkles. It stimulates the skin's water cells, plumping and hydrating the driest of skins.

Blue Light Therapy

all skin types, in particular acne and congested skins - £45 | 30 min

Acne develops when the sebaceous glands produce excess oil. Dirt and make-up combined with dead cells clog the pores, causing inflammation and reddening. Blue light will neutralise bacteria to reduce inflammation, redness and soreness and to promote a healthier skin.

Near Infra-red Therapy

all skin types, in particular ageing and hypersensitive skins - £45 | 30 min

A combination of pure visible red and near infra-red light, which stimulates the bottom layer of skin tissues, softens fine lines and wrinkles and improves skin tone, leaving the skin feeling soft and super smooth.

Light Therapy with Skin

£95 | 60 min - resurfacing treatment (consultation recommended)

LED light therapy can be used in conjunction with resurfacing treatment for a more advanced and deeper aesthetic treatment. Skin resurfacers remove the outermost layer of dead skin cells and unclog pores, while addressing a number of skin concerns.

Add-on Light Therapy

with any facial - £30 | 20 min

LED light therapy can be added to any facial.

Course of LED Light Therapy Treatments

A one-off treatment is recommended for that special occasion. A course of treatments is recommended to address specific skin concerns.
